APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued with the express provision that the vested rights, if there be any, existing on this source must be respected.
So far as the records of the office of the State Engineer show it appears there are no rights through application to this office, but all vested rights are not yet a matter of record.
The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed One Tenth cubic feet per second.

Actual construction work shall begin on or before May 2nd. 1913.

Proof of commencement of work shall be filed before June 2nd. 1913.

Work must be prosecuted with reasonable diligence and be completed on or before August 2nd. 1913.

Application of water to beneficial use shall be made on or before October 2nd. 1913.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before November 2nd. 1913.

WITNESS MY HAND AND SEAL this 2nd. day of November, 1912.

Proof of labor filed NOV 21 1912

Map filed DEC 12 1912

Proof of beneficial use filed APR 21 1913

APPLICATION FOR PERMIT.

To appropriate the Public Waters of the State of Nevada.
Date of first receipt and filing in State Engineer's Office,
April 1, 1912.

Returned to Applicant for correction, Apr. 1, 1912.
Corrected Application filed,

-0-

THE UNDERSIGNED, R.L. Foster, of Goldfield, County of Esmeralda, State of Nevada, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated:

1. The source of the proposed appropriation is Foster Springs
2. The amount of water applied for is, 1-10 second feet.
3. The water is to be used for domestic purposes in applicants home, and carried from reservoir tank by wagons to other homes in the towns of Columbia and Goldfield.

4. The water is to be diverted from its source in the underground waters, which has already been tapped by a small tunnel, opening a spring, at the following point: S.0° 40' E. 4780 feet from the SW Cor., Sec. 35 T. 2 S.R. 42 E., M.D.B & M.

(g) There is at least 1-10 second feet of water in the unappropriated underground flow from the Malapai hills lying to the SW.

Description of the proposed works:

The water is to be developed and concentrated in a small tunnel and piped by a 3-4 inch pipe line in a N.43° E. direction the distance of about 1600 feet, to a tank reservoir high enough for loading wagons from same, and another line east about 200 feet to the residence of applicant. There used for domestic purposes.

5. Estimated cost of the works, completed fifteen hundred dollars.
6. Estimated time required to complete the works, 30 days.
7. When these works are completed the water will be of immediate use. The overflow, from the capacity of the tank reservoir will be returned to the water course nearest to its source.

ROBERT L. FOSTER, APPLICANT.
